SKILLS & PROFILE

I'm a **Software Development Engineer**, my skills involve technologies such as:

- Unity
- C#
- C++
- Java
- Html 5
- CSS
- PHP
- Kotlin
- XML
- Laravel
- React
- Firebase
- Supabase
- Android Studio
- Python
- English (C2)

RELEVANT EXPERIENCE

Novasys – *Java Developer & Administrative operator (2024)*

- Enhanced and expanded functionality of a mature Java-based application by implementing new features, optimizing existing code, and addressing technical debt, improving overall performance and user experience.

WSP International – *IT Intern (2023)*

- Provided high-quality tech services to the company's collaborators, identifying and solving problems as efficiently as possible. Additionally, I conducted workshops for collaborators to learn how to utilize AI tools to enhance their work. Moreover, I was involved in helping with the migration the company went through to Microsoft 365.

Teleperformance – *Waha Bilingual Agent (2022)*

- Efficiently attended to multiple customer affairs with professional interactions, all conducted entirely in English. These affairs included, but were not limited to, billing services, technical support for Wi-Fi networks, remote hardware diagnosis, technical support for phone line networks, etc.

EDUCATION

Major in Software Engineering – *Universidad Tecmilenio (2024)*

- Graduated with honors (3.83 GPA) in Software Engineering, with certifications in Game Development, Game Design, Mobile App Development, and Web Development.

ACADEMIC ACHIEVEMENTS

Academic Excellence – *Universidad Tecmilenio*

Issued on: 2021, 2022, 2023 & 2024
